

## FIELD INSTALLATION INSTRUCTIONS

TITLE: Changing from 230V to 208V  
NAME: FII-003  
ISSUE DATE: 31 Oct 2012  
REVISION: 1

### **PURPOSE:**

The intention of this FII is to standardize the changeover from 230V to 208V on a 750VA Transformer.

### **PROCEDURE:**

*Step 1:* Open the door on the electrical enclosure.

*Step 2:* Remove the wire on H3.

*Step 3:* Attach the wire to H2.
